

Applied Behaviour Analysis

SUMMER CAMPS

Robotics & Coding 101

At this camp, your child will have the added bonus of working alongside industry professionals and/or the first place Robotics Canada high school student team.

High School Prep Club

Students of similar age will work together to prepare for the transition to high school. This program will cover a wide range of topics that will help your teen navigate a new school setting.

Conversation Camp

This program is dedicated to building your teen's social-communication skills while working in a group setting with highly trained Applied Behaviour Analysis (ABA) Therapists.

Sign Up

Registration is now open for July and August Summer ABA Camps.
