Upcoming Events 2019

Augmentative and Alternative Communication (AAC) Strategies	A workshop for caregivers who are supporting a person who uses augmentative & alternative communication (AAC), facilitated by the Augmentative Communication and Writing Aids (ACWA) Program. This workshop will provide an introduction to using AAC and teach caregivers strategies to build communication skills.
Augmentative and Alternative Communication (AAC) Programming: <u>Proloquo2Go</u>	A workshop for caregivers that have a family member using Proloquo2Go. This workshop will help support families in using and editing the Proloquo2Go app.
Augmentative and Alternative Communication (AAC) Programming: <u>LAMP Words for Life</u>	A workshop for caregivers that have a family member using LAMP: Words for Life (LAMP). This workshop will help support families in using and editing the LAMP app. Separate workshops for LAMP on iPad and LAMP on a dedicated device.
Communication Skills	This session will discuss ways that parents can be active and engaged in building their child's early communication skills. The development of communication skills will be discussed, as well as strategies to motivate children to communicate during daily routines.
Sibshops	This session offers a mix of activities that focus on the experience of having a sibling with special needs. Physical activities and table top activities with age appropriate group discussions on the topic.
Parent Drop-In Information Day	Provides information to care givers about transition planning, Developmental Services Ontario (DSO), Ontario Disability Support Program (ODSP), Passport funding, Wills & Estate planning, free/low cost supports and how to access clinical services.
Caregiver Support Group	Sessions will encourage members to share their experiences both positive and negative of the demands being a caregiver requires and attempt to minimize some caregiver stress/burnout by exploring ways to implement accessible coping strategies to everyday life.
Augmentative and Alternative Communication (AAC) Programming: <u>LAMP Words for Life</u>	A workshop for caregivers that have a family member using LAMP: Words for Life (LAMP). This workshop will help support families in using and editing the LAMP app. Separate workshops for LAMP on iPad and LAMP on a dedicated device.
Orientation to Pathways (Planning for Life after high school)	A presentation and discussion on planning ahead during the secondary years, to prepare for transition pathways towards adulthood. The session will explore pathways to employment, to adult services and to post-secondary education. Applicable resources will also be shared.
