New Haven Learning Centre was founded in 1998. Our non-profit organization continues to enhance the field of Applied Behaviour Analysis (ABA) with trained staff offering life changing training and education. Our services are tailored to the needs of the individual, focusing on sustainable change that can positively impact each and every client we serve. Our ultimate goal is to assist participants in finding meaningful employment opportunities following our training workshops.

IMPACT was sponsored, in 2017-2018, through the Opportunities Fund, Service Canada Federal Government, and has grown to extend its 2019 sponsorship through the valued financial contributions of Gay Lea Foundation.

IMPACT offers comprehensive assessments, individual service models, vocational workshops, work placements, and job coaching.

Past successes: 100% of participants enhanced their employability, 83% employed post IMPACT program!
