

WHAT HAPPENS WHEN YOU GET THE COVID-19 VACCINE

How To Stay Safe When You Go To Get The Vaccine

- **Wear a mask**
- **Wash your hands**
- **Make sure you feel healthy!**

Tell your caregivers and doctor if:

- **If you feel sick (cough, vomit, runny nose)**
- **If you are feeling scared**

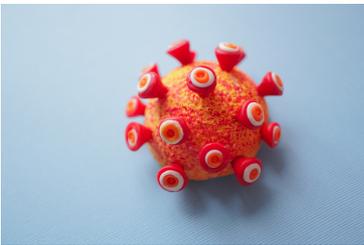

What To Do Before The Vaccine

- It is important to wear a mask if you are able to wear one
- Make sure to wear a short sleeve shirt!

You will have to come back to get another vaccine in a few weeks.

This is important to ensure the vaccine works well to protect you from COVID!

What Will Happen When You Get The Vaccine?

- A doctor or nurse will come see you

- They will clean your arm with a wipe

- You may feel a small pinch

- Once its all done, your arm may feel sore or be a little red- but that's normal!

What Happens After You Get The Vaccine?

You will wait in the office until the nurse tells you that you can go.

You can have a snack or treat if you want, you did so well!

Your arm may feel sore for a little while, but if you feel sick, tell your caregivers and they can help!

Your body will become stronger and help protect you from COVID-19

When You Get Home You Should Tell Your Caregiver If:

1. You don't feel well
2. You have itchy bumps on your body
3. You feel hot and sweaty
4. Your face feels funny or you can't breathe well

REMEMBER!

You still need to remain safe in your community!

It's still important to:

- **Wear your mask**
- **Wash your hands or use sanitizer**
- **Say hello or wave when greeting others**

Way to go!!

You're doing your part to keep your friends and family safe!
