

# DIY Kazoo

Crafts | Music

Connect **ABILITY.ca**

## WHAT MAKES IT MEANINGFUL

Individuals will learn how to create different sounds and pitch.

## TIME

Unlimited

## MATERIALS

- a paper towel or toilet paper roll tube
- a square of waxed paper (approx. 7.5 cm by 7.5cm, or 3 inches by 3 inches)
- an elastic band
- a pair scissors
- markers or paint or stickers
- a typical kazoo (optional)

## INSTRUCTIONS

1. Cut out a square of waxed paper that is 7.5 cm by 7.5cm (or have these already prepared).
2. Tightly wrap the waxed paper over one end of the cardboard tube and secure it with an elastic band. Be careful not to apply too much pressure to the cardboard, it may cave in or bend.
3. Poke an air hole into the cardboard tube with scissors or a pen, right below the wax paper. Trim the waxed paper if necessary so it doesn't cover the hole.
4. Put the open end of the kazoo to your mouth and hum a tune.
5. Feel the other end of the kazoo with your hand while you are humming.
6. Decorate your kazoo with markers, paint, or stickers.
