Music is such an important part of living a meaningful life. When you mix both arts and crafts with music, you get a beautiful combo. Being able to create something functional with your bare hands is such an accomplishment. By making music with your hand made instrument can be a creative outlet, and can be a way to express your emotions.

SUPPORTS NEEDED

The one thing that may prove to be an issue is making sure a sufficient amount of beans get into the shaker. Not too many and not too little.

OTHER THINGS TO NOTE

Make sure to attach the lid very securely so that the beans don't spill everywhere.
