

EVERYONE IS INVITED TO OUR 2026 RELAXED PERFORMANCE!

A relaxed performance (RP) is adapted to create a more inclusive and comfortable environment. RPs modify lighting, sound and traditional audience expectations so everyone can enjoy the performance without sensory discomfort. These performances are especially designed to support autistic and neurodiverse individuals, as well as families, young children and first-time theatregoers.

Babes in arms (children aged two and under) are also welcome to our relaxed performances. During RPs, audience members are free to move around, make noise or take breaks outside the auditorium as needed.
